

CTFPND-1 Handy How-To

Choose the icon marked on the picture with your touchscreen to get to the mobile phone main menu.

Navigate with your touchscreen to 'Pair mode'.

Choose with your touchscreen the marked icon with the 'antenna icon'.

Activate the bluetooth function of your mobile phone. The device must be visible to all other devices. Start to search for new devices now with your mobile phone. The name of the device which will appear on your mobile phone is 'CTFPND-1'.

Now you will be prompted by your mobile phone to enter a pin code, please enter the default pin code of the CTFPND-1 '0000'.

The main menu of the CTFPND-1 will return to the „Phone“ main menu after successfully connecting the devices and to confirm the pairing press the icon in the bottom right corner.
